

Write it. Run it. Break it. Fix it better.

I'm **Kavitha**, a Computer Science and Engineering student at SRM Valliammai. I code in C++ and Python, and I learn best by building things and figuring out why they work.

See what I work with [↗](#)

About me

I am a second-year Computer Science and Engineering student who enjoys turning a problem into a working program. C++ taught me how computers think, and Python lets me move fast.

Skills

C++ Strong foundation for logic, data structures, and understanding how code runs.	Python Quick to write and flexible, great for scripts, problem solving, and experiments.
--	--

How I work

- 01 Start with a question
- 02 Write a first version
- 03 Run it and see what breaks
- 04 Understand why
- 05 Improve it

Education

B.E. Computer Science and Engineering SRM Valliammai · 2nd year
